

Level 2 Certificate in Risk Assessment

QSP are accredited centre with the British Safety Council, offering companies the opportunities to train their staff to meet legislation and requirements to meet the individuals and organisation needs.

Who is it For?

Those with responsibility for carrying out risk assessments in the workplace.

How does it Work?

The course can be delivered on site at the premises of the company or at our training centre in Redditch. The training is delivered as a 1 day course.

Our training utilises the very latest learning methods, with special emphasis on participative and interactive techniques. Our training aim is to share knowledge and practical experience and, through tutor-led sessions, build on that experience so that every participant is able to manage risk effectively and realistically. The training sets out to develop sound and practical knowledge and understanding for day-to-day application in the workplace and prepares each participant for the Level 2 qualification assessment.

Delegates complete a risk assessment task in their workplace and submit this electronically in a template provided by the BSC Council. The file is then forwarded to an independent health and safety practitioner for external marking.

What will I Gain?

Delegates receive a level 2 Certificate in Risk Assessment on successfully completing an externally assessed work based risk assessment. . Issued by the British Safety Council who are a government regulated body.

What are the Benefits?

- ✓ A nationally-accredited qualification which is universally accepted as a badge of professionalism and commitment
- ✓ A flexible learning and assessment model which allows organisations and training providers to prepare delegates as required, using learning materials supplied by BSC Awards.
- ✓ Fit-for-purpose assessment tasks related to the delegates workplace, testing their effectiveness in a practical context.
- ✓ A syllabus designed to provide the underpinning knowledge for the health and safety element of a range of sector-specific National Vocational Qualifications (NVQs).

Level 2 Certificate in Risk Assessment
